Jagiellonian University Medical College

**3 FACULTIES: MEDICINE, PHARMACY,
HEALTH SCIENCES**

MORE THAN 5500 STUDENTS

**OUTSTANDING ACADEMIC TEACHERS
AND RESEARCHES**

SCHOOL OF MEDICINE IN ENGLISH

**DOCTORAL SCHOOL OF MEDICAL
AND HEALTH SCIENCES**

**POSTGRADUATE MEDICAL TRAINING
CENTER**

Internationalization and international cooperation

Internationalization and international cooperation

Studies in English:

- Medicine
- Dentistry
- Drug Discovery&Development
- Interdisciplinary PhD Programme in Medical and Health Sciences

International networks:

- AUCSO
- Baltic University Programme
- COIMBRA Group
- European University Association
- EUNIS
- EUROPÆUM
- SAR
- The Guild
- Una Europa
- Unitown
- UTRECHT Network

Institutional cooperation:

- NBME National Board of Medical Examiners
- AAMC Association of American Medical Colleges
- CARMS Canadian Resident Matching Service

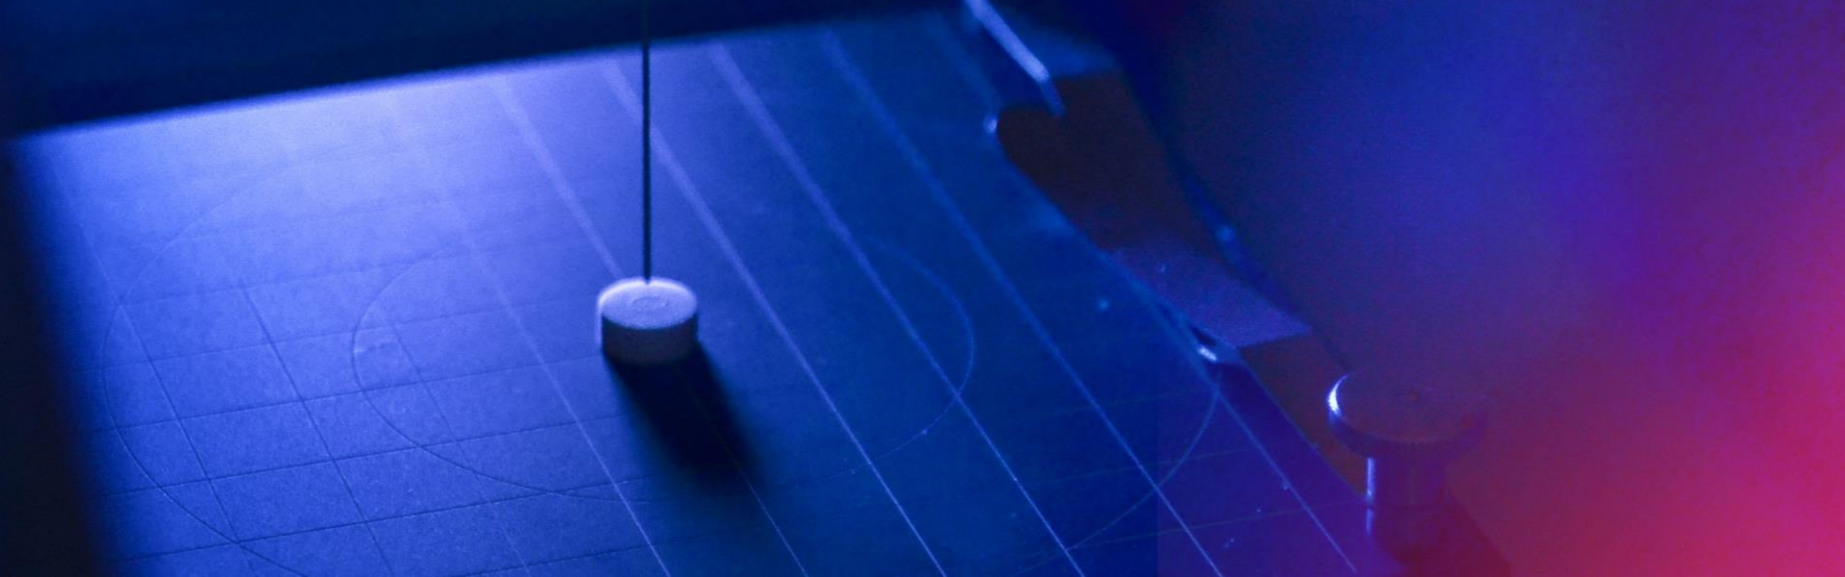

Project cooperation

- bilateral exchange agreements with universities around the world
- agreements Erasmus+
- projects on cooperation for innovation and exchange of good practices
- programme Europubhealth +

Accreditations

- Malaysian Medical Council
- Medical Board of California Accreditation (MBC)
- National Committee on Foreign Medical Education Accreditation (NCFMEA)
- Educational Commission for Foreign Medical Graduates (ECFMG)
- Equals for JU MC Language

JUMC - science and research

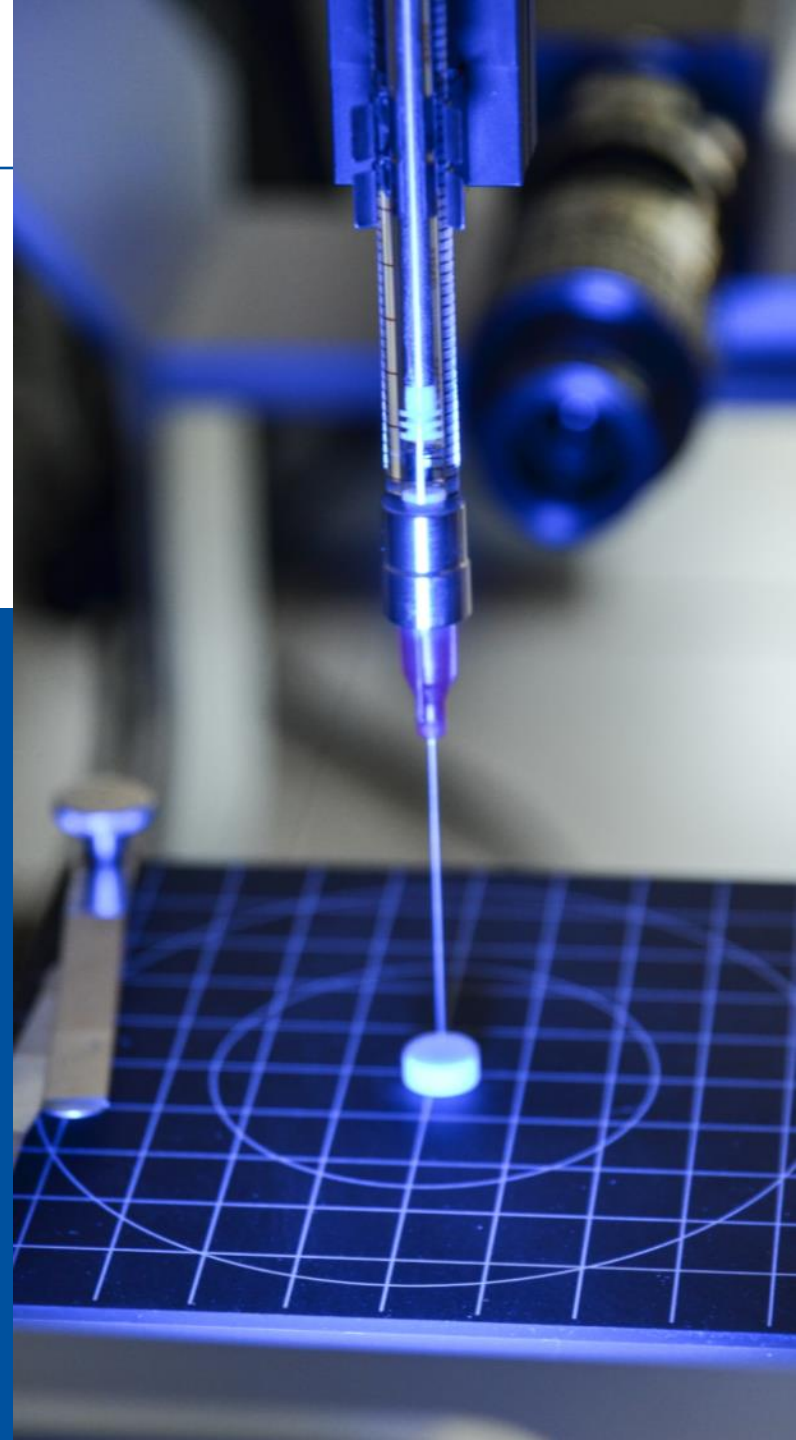

JU MC - science and research

- modern research centers
- state-of-the-art equipment
- international research teams
- hundreds of projects carried out each year
- prestigious research grants

JU MC partakes in the Excellence Initiative – Research University program. As part of the qLife Priority Research Area “Quality of research for the quality of life”, our scientists are realising research projects in:

- social diseases and diseases of affluence;
- reproductive health;
- regenerative medicine.

JU MC - science and research

The research endeavors of 2023 included:

- over 145 projects funded by the National Science Centre, totaling over 28 million EUR,
- 41 projects funded by the Ministry of Science and Higher Education, with a total amount of almost 2 million EUR,
- 14 projects funded by the National Centre for Research and Development, with a total amount of almost 6.7 million EUR and nearly 3.4 million EUR for JUMC,
- 2 research projects funded by the Ministry of Health, totalling over 220 thousand EUR,
- The University projects funded by Ministry of Science and Higher Education subsidies:
 - 27 projects for doctoral students of JUMC faculties and the Doctoral School of Medical and Health Sciences, totalling over 125 thousand EUR,
 - 360 projects for JUMC researchers, totalling almost 1.7 million EUR,
- 7 projects funded by the Medical Research Agency, totalling almost 22 million EUR, over 14.2 million EUR for JUMC,
- 5 LIDER projects funded by the National Centre for Research and Development, totalling over 1.6 million EUR,
- 9 projects within the European Funds framework, totalling almost 33 million EUR, 23.3 million EUR for JUMC,
- 25 international projects, totalling nearly 70 million EUR, almost 4 million EUR for JUMC,
- 33 projects from the private sector, totalling over 467 thousand EUR.

Medicine – **251-300**
Pharmacy & Pharmacology – **201-250**

BY SUBJECT

Out of the 12 medical and health sciences study programmes that were ranked, as many as 9 taught at the Jagiellonian University Medical College were recognized as the best in Poland:

- Medical Analytics • Dietetics • Pharmacy • Medicine • Dentistry
- Nursing • Midwifery • Emergency Medical Services • Public Health

University Hospitals

University Hospitals

The University Hospital

The University Children's Hospital

The University Dental Clinic

The Orthopedic-Rehabilitation University Hospital

Medical Campus JUMC

Medical Campus JUMC

Innovative Medical Education Center and Medical Library

Faculty of Pharmacy

Dormitories with a sport complex

The University Children's Hospital – the largest pediatric hospital in the region

University Hospital – the most modern hospital in Poland, a leading medical facility that combines experience and tradition with the latest trends in medicine

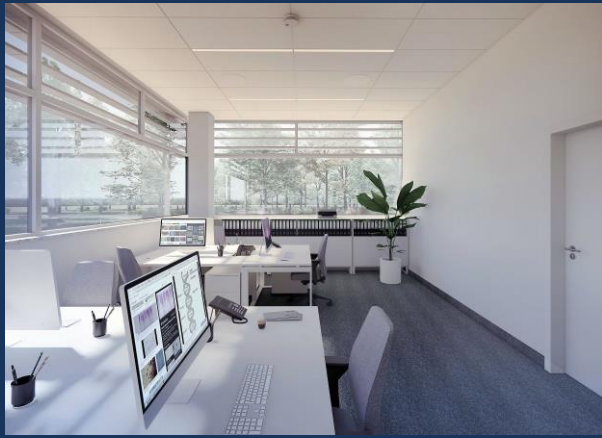

Investment Project - teaching and research center

Building laboratories, research modules, classrooms, and an animal facility is all part of the next development stage of the Medical Campus of the Jagiellonian University Medical College, which is the creation of a modern teaching and research center.

Such facilities will allow for a comprehensive employment of the scientific potential of the three faculties of the JU MC. Medical research in various areas from basic research, through optimization of treatment, to solving problems in the field of public health will be carried out here.

Investment Project - teaching and research center
